SEARCH FOR ATOMIC ENERGY ACTIVITY
COMMUNIST CHINA

25X1C

A search for previously unreported atomic energy activity was made of the area covered by [REDACTED]. This mission is generally of good quality with about 50% cloud coverage.

No new or unreported atomic energy activity was identified during this search.

25X1D

An unidentified mining area that has not been previously reported was seen on frames [REDACTED]. This area is approximately 10 nautical miles west of Yu-tu at 25-57N 115-14E. Open pit and shaft mining can be seen and some mechanical separation is done near the mines. The installation contains about 15 buildings and is road served. No security measures are evident.
